

Small Pellet Mill

The GC-9PK series flat die pellet mill can make wood pellet and animal feed, designed for different usage, the structure is different.

Adopted by this machine, can control the feeding capacity correctly to suit different materials and meet the production requirement of pellets with different diameters. Granulation of materials such as various feedstuff for livestock, poultry and aquatic products, grass meal, organic fertilizer, etc

GC-9PK360B

GC-9PK400B

GC-9PK260B

GC-9PK120B

Diesel Pellet Mill

Model: GC-9PK200B pellet mill Capacity: 100-150kg/h Power: 7.5kw	Model: GC-9PK230B pellet mill Capacity: 150-200kg/h Power: 11kw
Model: GC-9PK260B pellet mill Capacity: 200-250kg/h Power: 15kw	Model: GC-9PK300B pellet mill Capacity: 250-300kg/h Power: 22kw
Model: GC-9PK400B pellet mill Capacity: 300-400kg/h Power: 30kw	Model: GC-9PK230A pellet mill (diesel engine) Capacity: 180-230kg/h Power: 22HP

There are two small scale pellet mills as follows, which only can process feedstuff for animals.

Model: GC-9PK120B pellet mill Capacity: 75-100kg/h Power: 3kw	Model: GC-9PK150B pellet mill Capacity: 100-130kg/h Power: 4kw
